

## Mildew Remover

1 cup vinegar

25 drops tea tree essential oil

15 drops clove oil

16 oz. glass spray bottle

Combine ingredients into spray bottle. Shake. Spray on mildewed spots. Let sit 5-10 minutes. Wipe off with microfiber cloth or sponge. For deep mildew, apply daily until you see results (it will be fast!).

### Tips:

Rinsing with water is not recommended. Simply spray and wipe for best results.
